Combustion if dry. Avoid smoke inhalation if product is combusted.

### SECTION 6 – ACCIDENTAL RELEASE MEASURES

Emergency Procedures No special precautions required.  
Environmental Precautions Avoid deposition in waterways.  
Methods for clean-up Spilled material can be cleaned up and collected using generic earth-moving equipment.

### SECTION 7- HANDLING

Handling: Wear personal protective clothing to avoid skin and eye contact. Avoid breathing product dust.

## SECTION 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

National exposure standards	there are no exposure limits available (general dust recommended exposure standard should be less than 10 mg/m <sup>3</sup> )
Engineering controls	Use in open or well-ventilated areas. All work with this product should be carried out with precautions to avoid skin and eye contact and minimize exposure to dust.
Personal protective equipment	Wear suitable protective equipment, standard duty gloves (AS2161) safety shoes, protective clothing, safety glasses with side shields. (AS/NZS 1446 and dusk mask if exposed to product dust and or liquid mists (AS/NZS 1715 and 1716).

## SECTION 9- PHYSICAL AND CHEMICAL PROPERTIES

Appearance (colour, Physical form, shape)	Pasteurised crushed timber. Light brown to dark brown in colour
Odour	Mulch Odour
PH	6-8
Vapour Pressure	Not Applicable
Specific gravity or Density	Not Applicable-varies according to composition and moisture content.

## SECTION 10 – STABILITY AND REACTIVITY

Chemical stability	chemically stable.
Conditions to avoid	Not applicable
Incompatible materials	Not Applicable
Hazardous reactions	Not applicable

## SECTION 11- TOXICOLOGICAL INFORMATION

Health Effect from exposure: Repeated inhalation of dust and/or liquid mists (bio aerosols) from these products may result in respiratory irritation, inflammation or sensitisation resulting in illnesses ranging from hay fever and asthma to pneumonia (eg Legionnaires disease) and pneumonia like illnesses. The elderly those with pre-existing respiratory diseases and the immunocompromised are at particular risk from these illnesses. All people working with these and other landscaping and horticultural products should ensure that they are adequately protected from tetanus.

## SECTION 12- ECOLOGICAL INFORMATION

Eco toxicity	Avoid deposition in water ways
Persistence and degradability	not applicable

## SECTION 13 – DISPOSAL CONSIDERATIONS

Disposal methods and containers	normally suitable for disposal at approved land fill sites
---------------------------------	--

## SECTION 14- TRANSPORT INFORMATION

UN Number	Not applicable
UN Property shipping name	Not applicable
Class and Subsidiary risk	Not applicable

## SECTION 15 REGULATORY INFORMATION

Not Applicable

## SECTION 15 – OTHER INFORMATION

Date of preparation of last revision of MSDS 22/09/20  
Soils Aint Soils will issue a new MSDS when appropriate.  
The data in this MSDS are to the best of Soils Aint Soils knowledge,  
Accurate and reliable at the date of preparation.
